

Biomass Silo Systems

W122-8 - 12 Ton Pellet Store

This square pellet store is manufactured from galvanised steel and has a 2.8m X 2.8m footprint which allows users to benefit from increased capacity without the need to increase the height of the pellet store.

A range of different silo bases can be manufactured either to suit our own extraction options or alternatively to integrate third party extraction systems when required.

Product Code	W122-8
Footprint	2.8m x 2.8m
Height	4.162m
Volume	22.404m ³
Useful Capacity	14.563 Tons
Flat Packed Dimensions	(L)2400mm x (W)1200mm x (H)1500mm
Empty Weight	1.52 Tons
Approx Assembly Time	17 hours for two people

Standard Features

Bulk Delivery Connections

Filling and ventilation pipework with delivery connections

Bag Filling Panel

For bag filling and periodic cleaning and maintenance

Inspection Window

For checking pellet levels

Manual Extraction Chute

For withdrawing pellets and can be positioned on any side

Feed Shut Off Slide

To isolate feedbox during cleaning filling or maintenance

Dust Removal Panel

For removal of dust from silo

Feed Outlet

Choice of standard auger or vacuum feed outlets

Feed Options

Rigid Auger

A rigid straight auger collects the pellets from the outlet and feeds direct to the boiler

Flexible Auger Direct to Boiler

A flexible auger collects the pellets from the outlet and feeds direct to the boiler

Vacuum System

A proprietary vacuum bracket is fitted to the feed box on the silo which is connected to boilers own vacuum extraction system

Optional Extras

Colour Coated Finishes

Gives the product a 30 year outdoor life

Timber Cladding Kits

Treated timber and timber effect steel cladding panels

Fuel Level Monitoring System

Sensor based fuel level control system with GSM unit for low level alerts
